In a bright future envisioned by the GTB councilors and members who worked to establish this new department, the Tribe is able to produce food and food products for the tribal community.

Utilizing Existing Agricultural Resources:
Over the 6 - County Service Area; Charlevoix, Antrim, Grand Traverse, Leelanau, Benzie, and Manistee, GTB has over 1,000+ acres of agricultural lands. HISTORY OF PESHABESTOWN

Here reside some of the Indians whose ancestors made the wilderness their home and hunting ground -- an intermarried mixture of Chippewa and Ottawa Indians who had made up the Peshaba tribe. The settlement, formerly known as Eagletown, was established by a band of Ottawas who came south from Cross Village, near the Straits of Mackinac, in 1852.

Some royal blood still exists in Peshawbestown. The last chief was Ben Peshaba. He had a son, Ed Peshaba and a grandson, Lawrence, who reside there and preserve the name of the Peshaba tribe. Ben's daughter, Lucille, married Ed Harris and had a son Fred who lives in Northport. It is therefore only fitting that Fred Harris and Ed Peshaba have been chosen to be the chiefs and lead us in this Pow-Wow in the tradition of old.

Over 200 years ago, Native American trail marker trees were common in the Midwest, but today, very little is known about them. American Indians relied heavily on these unusually bent trees to mark pathways and portage routes as they traveled from point to point. Some trees designated as markers were deformed due to disease or storms, but others were deliberately shaped as young saplings by the Native Americans to serve as navigational aids that would last for centuries. This white oak tree, a traditional Native American trail marker tree, is one of two guideposts on the north-to-south "Detroit to Straits of Mackinaw" trail traveled by the Anishinaabe or Anishinabek Indians. --Dedicated October 2016 in honor of the Grand Traverse Band of Ottawa and Chippewa Indians

PURCHASED REFERRED CARE (PRC)

If you have any bills or claims, please provide these to the Purchased/Referred Care office for further disposition.

* Purchased Referred Care relies upon Federal and RAO dollars to support the program, and serves eligible clients in Antrim, Benzie, Charlevoix, Grand Traverse, Leelanau, and Manistee Counties.

Recently the department has undergone some internal changes to better serve our client base. Priority Levels of Service are established at the beginning of each fiscal year in order to provide that funds will be available

for services most needed by membership.
As funds deplete the Priority Levels of Service will be adjusted to ensure that essential services are available.

*Descriptions of Priority Levels of Service for Medical, Dental, and Optical are available upon request, and posted in the GTB Newsletter, and other Government buildings.

When direct services cannot provide the necessary health care for our clients, PRC eligible clients are then referred to outside Providers for care and follow up. Clients are encouraged to continually update their information with the PRC office, to keep benefits active. Failure to do so may result in denied claims. PRC operates on a pre-approval basis with pre-approval requirements.

Appointments must be called in 48 hours in advance so that 'pre-certifications' can be completed for billing and claims processing. Actions outside this procedure may result in payment denial. *Appointments can be called in to the PRC appointment Hotline anytime at 231-534-7223, this line is checked daily.

Emergency services must be reported within 72 hours of incident. An emergency is defined as: Any medical condition for which immediate medical attention is necessary to prevent the death or serious impairment of an individual's health. Elders have up to 30 days to notify the PRC office. We regret we cannot provide all services to all people; we are limited in our resources. With everyone's cooperation we can provide the help to those most in need of medical intervention. Please follow the procedures outlined so the system can operate smoothly for everyone.

Purchased Referred Care in Review Reassessments are due EVERY YEAR during the month of September and forward. Notices of PRC outreach meetings are posted via newsletter publication, mailers, and other means of communications.

YOUR MEDICAL INFORMATION CANNOT BE DISCUSSED WITH ANYONE WITHOUT YOUR WRITTEN CONSENT.

Please keep your consent form updated yearly if you depend on someone to manage your medical affairs. Report all appointments on the hot line number listed. This ensures timely processing of billing and claims.

LEGAL REPRESENTATION

The Tribal Council is the client of the GTB Legal Department. The Legal Department strives to provide professional, competent, comprehensive and timely services in all matters related to the client's constitutional functions as the executive and legislative branches of the GTB government. The legal services provided include: legal representation in disputes involving GTB, drafting legislation and providing professional advice related to the programmatic functions and interactions of the GTB tribal government between the various departments of GTB, as well as with its tribal citizens, and the tribal government's relationship and coordination with the federal, state, and local governments.

2% PROGRAM

The 2% program is the result of the Consent Decree, which settled Tribes v. Engler (Case No. 1:90-CV-611, U.S. District Court, Western District Michigan). With this settlement, the Grand Traverse Band agreed to pay 2% of its video gaming revenue to local units of government, as defined in the stipulation, no later than 60 days after October 1st and March 31st of each year.

This payment schedule was modified with the consent of the State of Michigan to July 31st and January 31st of each year because the fiscal year of the GTB's gaming operations is calendar-based. Local units of government applying for 2% grants are provided copies of the 2% Guidelines and 2% application, both of which were approved by Tribal Council. Since the 2 percent allocation began in 1994, the Grand Traverse Band has allocated \$41,049,342.47 to local organizations.

LAND & ROADS MANAGEMENT OFFICE

The Land & Roads Management office is charged with overseeing many issues related to GTB's land acquisitions, property management, fee-to-trust matters, transportation planning, road maintenance, road construction, residential tribal lots for members and mapping of GTB properties.

This office maintains files for the Tribe's 2,700 acres of land of which 1,223 acres are in Trust with the USA for GTB. Over the last ten years the Tribe's Roads program has received over 33 million dollars through the BIA Tribal Transportation Program to build new roads and improve existing roads. This funding has been used to construct several Tribal residential roads and sidewalks. It also has been used for constructing Government, EDC and GT Resort roads, sidewalks and parking lots. A portion of this funding has allowed the Tribe to Coop projects with local County Road Commissions 20 to reconstruct county roads that serve the GTB population throughout the six county service area.
