

Grand Traverse Band Family Health Center Mission Statement

The staff of the Grand Traverse Band Family Health Center is committed to provide Native Americans with the highest quality, affordable health care, confidentially dealing with patients from newborns to elders, emphasizing treatment of the whole person.

- ◆ We will stress comprehensive, continuity care for our patients in inpatient and outpatient settings, becoming patients advocates in spirit of compassion.
- ◆ We view preventive medicine and patient education as important rolls to maintain and improve our patient's health.
- ◆ We will honor our patients as individuals, offering them involvement in decisions about their health with the assistance of traditional healing and other modalities.
- ◆ We will work with other social services to improve the health of our patients and their families.

GTB

COMMUNITY HEALTH REPRESENTATIVE

GRAND TRAVERSE BAND OF
OTTAWA AND CHIPPEWA INDIANS
HEALTH DEPARTMENT 8
MANOOMIN

The Community Health Representative is a key member of the Grand Traverse Band community health care team. We as CHR's are primarily responsible for providing a variety of health promotion and disease prevention. The CHR's are expected to deliver high-quality services, along with confidential services to individuals and families in their home and community to which the Community Health Representative is assigned. Best of all, we happily serve the 6-county service area. Your CHR develops an individualized and completely confidential *Plan of Care* for each of our patients.

The GTB CHR Team was selected to receive the Indian Health Services Bemidji Area Directors Award for 2021. The CHR's were invited to join Daniel Frye as his guest of honor at the Bemidji Area Directors Award ceremony on June 10th, in Bloomington, MN. This Bemidji Area Indian Health Service annual event honors and recognizes individuals and/or groups whose innovation, exceptional performance, or exemplary actions, within the context of Agency's priorities, have ensured quality services to our patients, stakeholders, and partners.
