

Your Voice Matters

Beginning with the 2024-2025 school year, as districts collect information about staff and students, they must also provide an **opportunity** for individuals to share their tribal affiliation(s). Districts will be required to submit that information to the Michigan Department of Education

Why does this new data matter?

- Increases the visibility of Indigenous learners in Michigan's public schools.
- Provides opportunity to learn more about how Indigenous learners are doing in programs designed for them.
- Strengthens relationships between tribal and school districts.
- Supports consultation between Tribal Nations and school districts.
- Creates opportunities to identify more support for Indigenous learners.
